351c Engine Numbers -
repo.koditips.com

The engine code number was a number assigned to a production batch of engines and is used to describe the engine in some detail, especially if it is used to identify the engine to a parts counter. U.S. 351C's used a code system that started with the letter 'K', and followed it with a sequential set of numbers running from 600 to 632.

v1docs.bespokify.com

If it's from a 1977 F100 it won't be a US-cast 351C, as they stopped making them in the States after 74. All US "cleveland" type engines cast after that were 400s or 351Ms. Ford H/D commercials have a different kind of chassis number to a Falcon, so your engine number starting with "A" is correct for an F-series.
