The entire A318/319/320/321 family is a mature design that has been flying for over 20 years. According to the excellent methodology of Dr. Todd Curtis, a former safety analyst with The Boeing Company, the single-aisle Airbus fleet has a statistical safety record that is three times better than its about-the-same-sized-competitor the B737 (0.11 vs. 0.34).

The largest Airbus customer in the US is US Airways, with a fleet of 263 A320 aircraft, including 121 A321s. They, of course, merged with American Airlines in 2015, and together with American's 144 A320 aircraft makes the largest fleet globally. Airbus however still reports US Airways as a separate customer.

## **These Airlines Operate The Largest Fleets Of Airbus A320s ...**

It is this version that has become a baseline for a smaller Airbus A319 and the enlarged Airbus A321. The Airbus A 320 is peculiar for the fly-by-wire flight controls pioneered on the passenger airliner, as well as an optimized wing design made of composites that is 20 per cent more efficient than the previous design. The
