Biology, while super informative and exciting to science junkies, can be a little dry. It can also be pretty intimidating. However, we're going to look at the light side: biology jokes! We definitely need to insert humor into biology. However, not literally into our biology. That could be painful. Or gassy. We've scoured the web ...

In AP Biology (and the subject of biology as a whole), everything is connected. Tip 3: Hit Refresh. Remembering something right after you've studied it is one thing, and remembering it in the long term is another. After you get through a few sections of the AP Biology notes above, go back and do a quick review of all the information you've learned.

The Barron's AP Biology Sixth Edition by Deborah Goldberg is quite possibly the most popular study guide material in the market today. It's certainly one of the most highly recommended titles by teachers, professors, and former AP Bio students alike. This explains why it's a widely popular option when it comes to AP study guides.
