Q.2 Explain different computer memories RAM, ROM, cache and Hard disk in detail. Answer :  
Computer Memories - Computer memories is responsible for storing data into memory. Entered data and instructions must be stored into storage unit before the actual processing starts. Similarly, the result produced by the computer after processing must also be kept somewhere inside the computer system before being passed on to the output units.

screen would look like after processing the command.· Has increased utility owing to the presence of a large number of examples and illustrations.· Covers programming assignments and experimental portions under specific chapters to take into account the practical nature of the course.· Contains appendices that introduce readers to emerging areas of research such as neural networks and fuzzy logic.· Provides model question papers for practicing questions based on the examination pattern.· Excellent pedagogy having:ü 160+ Figuresü 70+ Tablesü 40+ Programs with outputü 70+ Syntaxes and explanatory examplesü 220+ Objective questionsü 170+ Review questionsü 50+ Programming assignments. About The Book: This book helps in familiarizing students with the basic organization of the computer, and then moving on to study of the operating systems such as Windows, DOS and UNIX; database management systems; data structures; algorithms and C++, without entering into the specifics of programming languages and complex technologies. It provides an insight into the basics of computers as delineated by the syllabi of RGPV and various reputed Indian universities. This book is suitable for self-study because of clear explanation of the topics, uniformity in presentation, illustration of concepts through numerous examples; and chapters are laced with various screenshots to give an idea as to how the screen would look like while performing that particular step.

Written by one of the pioneers of computer education in India, this text is designed for first-year engineering students of Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV). It is written in-

# Read Book Basic Computer Engineering Rgpv

sync with the syllabus, common to all engineering branches. Covering the Fundamentals of Computers and Programming in C++, this text presents the concepts in easy-to-understand language.

This book is of immense use for the students of B.Tech (CSE), B.Tech (IT), BCA, DCA and PGDCA who involved in this field. This book is divided into five chapters and all topics are illustrated with clear diagrams, very simple language is used throughout the text to facilitate easy understanding of concepts, Students will find the parts in the earliest way that they can understand. We hope the book will serve its intended purpose and students will get benefit from it the maximum possible ways. We would like to thanks to all peoples who suggest our book and all the students who invoke this book, we hope that this new edition will serve a great knowledge, and will be immensely helpful to all students, who are often hard pressed of time. Any suggestion from students, teachers and experts for the improvement of this book will be greatly acknowledged and will lead towards the preparation of the next edition. We sincerely hope that all people will enjoy to reading this book. Prof. Vikram Rajpoot Prof. Prashant Chaturvedi Prof. Rakesh Agarwal

# Read Book Basic Computer Engineering Rgpv

Special Features: · Simple language, point-wise descriptions in easy steps.· Chapter organization in exact agreement with sequence of syllabus.· Simple line diagrams.· Concepts supported by ample number of solved examples and illustrations.· Pedagogy in tune with examination pattern of RGTU.· Large number of Practice problems.· Model Question Papers

About The Book: This book is designed to suit the core engineering course on basic mechanical engineering offered to first year students of all engineering colleges in Madhya Pradesh. This book meets the syllabus requirements of Basic Mechanical Engineering and has been written for the first year students (all branches) of BE Degree course of RGPV Bhopal affiliated Engineering Institutes. A number of illustrations have been used to explain and clarify the subject matter. Numerous solved examples are presented to make understanding the content of the book easy. Objective type questions have been provided at the end of each chapter to help the students to quickly review the concepts.

Special Features: · Provides simple, clear, and concise language, which makes the book easy and enjoyable to read.· Follows a code centric approach and provides code snippets wherever applicable.· Provides well-structured text and illustrative block diagrams and figures wherever required.· Includes chapter objectives at the beginning of each chapter to describe what the reader would learn in the chapter.· Provides complete code to support various concepts in the C++ language.· Provides step-wise approach for writing different queries related to commands in DBMS.· Includes comprehensive and detailed coverage of each topic to meet the requirements of the target audience. About The Book: This book provides a systematic

## Read Book Basic Computer Engineering Rgpv

approach with an in-depth analysis of computer systems as well as operating systems. It explores the different programming languages starting from the basic concepts of C++ and extends up to understanding arrays and functions in C++. The theme of this book is to explore different concepts of computer systems. This book combines techniques with practical advice and many new ideas, methods, and examples related to the C++ language. It covers inheritance of various classes, structures and unions for computer engineering students, system specialists, and programmers. This book is based on the syllabus of Rajiv Gandhi Proudhyogiki Vishwavidyalaya (RGPV) and provides explanation to different concepts with numerous examples and figures. Summing up, this book is a valuable source of information about computer systems, programming in the C++ language, Database Management System (DBMS), and basic networking concepts for engineering first year students.
