There are several methods of Bible book study. One is called the inductive method. This is a method of studying in detail the contents of a Bible book and then drawing from these details general conclusions or principles concerning the contents and purpose of the book. Another method of book study is called the synthetic method.

Inductive Bible Study:

Interpretation - The second step of the inductive Bible study method is

interpretation, which builds upon the first step,

observation. Interpretation

asks, "What does this passage of scripture mean?"

which can only be answered accurately if one makes

careful observations about

what the passage of

scripture is saying.
