A food chain is an organized series of living things linked together by an alimentary (food related) relationship. Animals draw the energy needed for survival from their food. At the base of such a chain one finds the producers. These are terrestrial plants or aquatic ones (algae, phytoplankton). They make their own organic matter from nutrients, CO2, and light (photosynthesis).

Building a food web – interactive simulations – eduMedia

Build a Food Web Activity As you have learned, a food web is a more accurate depiction of how energy moves through a community of organisms. Food chains show only a single set of energy transfers, ignoring that many organisms obtain energy from many different sources, and in turn may provide energy to many different organisms.

Build a Food Web Activity - ScienceGeek.net

Build a food web activity. An activity that allows students to build a food web and work out the numbers of animals. Then asks them to see how changing the numbers of one animal changes the rest of the web. Requires: String, scissors and counters. Sheets need printing and photocopying.

Build a food web activity | Teaching Resources

Build a Food Web Activity 1 As you have learned, a food web is a depiction of how energy moves through a community of organisms. Food chains show only a single set of energy transfers, ignoring that many organisms obtain energy from many different sources, and in turn may provide energy to many different organisms. As each one is introduced, readers will learn how that creature fits into the habitat's food chain, proving that a peaceful day at Butternut Hollow Pond is actually full of action and adventure For The many animals who live there.

Follows the chain reaction of losing one animal species, bees, to the grassland ecosystem.

Worm is all about having fun, respecting the earth, and never taking baths. Many children will relate to this funny character! In Diary of a Worm: Teacher's Pet, Worm makes a surprising discovery—teachers have birthdays. That means Worm and his friends have to find the perfect present for their teacher, Mrs. Mulch. Diary of a Worm: Teacher's Pet is a Level One I Can Read book, which means it is perfect for kids learning to sound out words and sentences.

Depicts a family of four who make their garden their summer home as they prepare the soil, plant seeds, water the garden, and watch for a harvest of vegetables.

Trout Are Made of Trees (PB)

Follows the chain reaction of losing one animal species, bees, to the grassland ecosystem.

Explains what a food chain is by describing the food chains seen in marshes and wetlands.

"A 22-volume, highly illustrated, A-Z general encyclopedia for all ages, featuring sections on how to use World Book, other research aids, pronunciation key, a student guide to better writing, speaking, and research skills, and comprehensive index"--

This is the first introductory volume to outline the fundamental ecological principles, which provide the foundation for understanding environmental issues. A strong framework of applied ecology is used to explore specifics such as habitat fragmentation, acid deposition, and the emergence of new human diseases.The volume addresses all aspects of biodiversity and physical setting, population and community ecology, ecology and society, environmental legislation and peering into the future.For those interested in pursuing knowledge in ecology and biodiversity.

The Discovering Science through Inquiry series provides teachers and students of grades 3-8 with direction for hands-on science exploration around particular science topics and focuses. The series follows the 5E model (engage, explore, explain, elaborate, evaluate). The Earth Systems and Cycles kit provides a complete inquiry model to explore Earth's various systems and cycles through supported investigation. Guide students as they make cookies to examine how the rock cycle uses heat to form rocks. Earth Systems and Cycles kit includes: 16 Inquiry Cards in print and digital formats; Teacher's Guide; Inquiry Handbook (Each kit includes a single copy; additional copies can be ordered); Digital resources include PDFs of activities and additional teacher resources, including images and assessment tools; leveled background pages for students; and video clips to support both students and teachers.
