Solutions for Thomas Calculus by George B. Thomas...

In calculus, the quotient rule is a method of finding the derivative of a function that is the ratio of two differentiable functions.

Let $f(x)=g(x)/h(x)$, where both g and h are differentiable and $h(x)\neq 0$. The quotient rule states that the derivative of $f(x)$ is

$$f'(x)=(g'(x)h(x)-g(x)h'(x))/[h(x)]^2.$$

Local fractional wave equations with local fractional derivatives are investigated in this paper. Analytical solutions are obtained by using local fractional Fourier series method. The present method is very efficient and accurate to process a class of local fractional differential equations. 1. Introduction Fractional calculus deals with derivative and ...
