Heart Dissection Lab - graftonps.org  
Obtain a sheep heart and place the heart in a dissecting tray. Imagine the heart in the body of a person facing you. The left side of their heart is on their left, but since you are facing them, it is on your right. Position your heart in the tray so that it matches the diagram below.

Sheep Heart Dissection  
1. Place a heart in a dissecting pan & rinse off the excess preservative with tap water. Pat the heart dry. 2. Examine the heart and locate the thin membrane or pericardium that still covers the heart. The pericardium or pericardial sac, is a double-layered closed sac that surrounds the heart and anchors it. The pericardium

Heart Dissection - AnatomyBox  
The half that includes all of the apex (pointed end) of the heart is the left side. 2. Locate the coronary arteries and veins that are on the surface of the heart. 3. Find the flaps of dark tissue on the top of the heart. These ear-like flaps are called auricles. 4. The front-most vessel is the pulmonary trunk.
