For the first time, the remarkable couple depicted in *The Blind Side* tells their own deeply inspiring story. First came the bestselling book, then the Oscar-nominated movie—the story of Michael Oher and the family who adopted him has become one of the most talked-about true stories of our time. But until now, Leigh Anne and Sean Tuohy have never told this astonishing tale in their own way and with their own words. For Leigh Anne and Sean, it all begins with family. Leigh Anne, the daughter of a tough-as-nails U.S. Marshal, decided early on that her mission was to raise children who would become "cheerful givers." Sean, who grew up poor, believed that one day he could provide a home that would be "a place of miracles." Together, they raised two remarkable children—Collins and Sean Jr.—who shared their

deep Christian faith and their commitment to making a difference. And then one day Leigh Anne met a homeless African-American boy named Michael and decided that her family could be his. She and her husband taught Michael what this book teaches all of us: Everyone has a blind side, but a loving heart always sees a path toward true charity. Michael Oher's improbable transformation could never have happened if Leigh Anne and Sean Tuohy had not opened their hearts to him. In this compelling, funny, and profoundly inspiring book, *In a Heartbeat*, the Tuohys take us on an extraordinary journey of faith and love—and teach us unforgettable lessons about the power of giving.

the nation's top stock pickers and money managers. It details how Brown skillfully kept Brown Capital Management afloat through the dot-com bust, 9/11 and the Great Recession. Born to a 13-year-old unwed mother in the rural South, this African-American investment whiz created a Baltimore-based financial firm that amassed more than \$6 Billion under management. Brown delves into the profound heartbreak and disorientation upon the death of his beloved grandmother — who was his surrogate mother -- and recounts how Brown's moonshine-running Uncle Jake subsequently became the dominant adult figure in Brown's life. His unflinchingly honest, easy-to-read memoir details how intellectual curiosity, abiding self-belief, hard work and divine providence helped Brown earn an electrical engineering degree, become an Army officer, and later a civilian IBM engineer. Readers will learn of the strife that ensued when Brown quit IBM to earn an MBA, leading to investment jobs that prepared him to start his own money management company in 1983.
