Definition and explanation. In accounting, the business transaction (also known as financial transaction) is an event that must be measurable in terms of money and that essentially impacts the financial position of the business. For example, you run a merchandising business and you sell some goods to a customer for \$500 cash; it is an event that you can measure in terms of money and that ...

International Business

Transactions In A Nutshell

An international business transaction is any type of deal between parties from at least two different countries and such transactions can include sales, licenses, and investments. An e-commerce transaction can be an international business transaction. In general, the parties to international business deals include individuals, small and large multinational companies, and even countries. The contracts for goods and services entered into by the parties, create at times legal issues.
