Across the realms of multimedia production, information design, web development, and usability, certain truisms are apparent. Like an Art of War for design, this slim volume contains guidance, inspiration, and reassurance for all those who labor with the user in mind. If you work on the web, in print, or in film or video, this book can help. If you know someone working on the creative arena, this makes a great gift. Funny, too.

Another body in a string of ritualistic murders. A serial killer who's getting cocky. Detective Derek Childress thinks this day just can't get any worse. And then he meets his new partner. Investigator Kayle Perrine is a Variant: one of several races of once-thought mythical creatures who now live among and lord-over humankind. Led by a group of vampires called the Clan Gentry, the Variants protect their own, just as they did when Derek's previous partner was killed by one, nearly a year ago.

Now that Perrine's on the case, Derek expects a cover-up. Kayle Perrine has worked his whole life to prove himself, but being paired up with a boorish mundane like Derek Childress is feeling more like punishment than reward. Derek is so blinded by his prejudice against Variants, that he refuses to see the evidence Kayle finds blatantly obvious. The sooner Kayle can close this case, the sooner he can go back home and forget about the infuriating human detective. A brutal attack forges a fragile truce between the two men, driving them together. Derek and Kayle must learn to trust and depend on each other while tempers flare and passions of every kind run hot between them. Yet as they begin to grow closer, one fact continues to keep them apart: they are from different worlds. With time running out to solve this case, Derek and Kayle understand that love may not be enough to overcome prejudice, politics, and murder.

Every time a lie is told, a raindrop falls. When the lie is revealed, a thunderstorm rages. When the lie is repaired, a flower appears. It includes a section with games to talk to your child about the consequences of lying.

her crew of twin sister, Annie, smitten Mikhail, and frenemy Mel, she's a pamphlet-wielding humanitarian, tackling a broken world full of heroes and heroines, villains and magical seeds, and Northwyth stories. Beginning with a roadkill-burying nine-year-old and a gas-leak explosion, it follows Gaby as she traverses childhood and young adulthood with characteristic intensity and a penchant for disaster. Meanwhile, the large cast of compelling characters entertains and the Northwyth legends draw you into their magic.

Lies are shattered, leaving death and destruction in its path. To save a child, they must make a deal with the devil himself. They had a plan: two days-get in, ask the questions, and get out. Seemed simple enough. But you know what they say about best-laid plans. Life always seems to get in the way of living. Revenge can be such a bitter pill to swallow, costing others to make the ultimate sacrifice. Jax's need for control slowly slips through his fingers as Raven's past attempts to steal their future. Will Maxwell be able to hang on to his happily ever after, or will it be cruelly snatched away, yet again?

secret from Rachel and Becky, but he underestimates the women in his life. In *The Case of the Deadly Sleepwalker* Lisa Hatherly is arrested for murdering her neighbour in her sleep! Philip Briton, Neptune's solicitor hires the boys to investigate. The evidence looks black against her—her footprints in the snow to and from the dead woman's house, the dead woman's jewels hidden in her wardrobe and her own admission that she'd had an argument with the deceased and was sleep walking that night with her soaked slippers matching the prints. Neptune's boutique is being robbed in *The Case of the Shoplifting Shop Assistant*, and it doesn't take him long to find the culprit. Meantime, Shark's family have arrived from Australia in time to celebrate Christmas with his friends in his new house.
