Cotton Trading Manual (CTM) is the first work to provide a comprehensive reference source to the conduct of the complex international cotton market. CTM begins by looking at the history of the cotton trade, and then moves on to assess the current global picture, including a discussion of trends in the market, as well as production and consumption analysis. The third and fourth parts focus on trading in physical cotton and futures respectively. Finally, the last section deals with administrative and management issues within the cotton trade as a whole, such as contracts, insurance and risk management. CTM is an indispensable practical companion for all those involved with trading in this commodity. Comprehensive reference to the complex international cotton market Discusses the history of the cotton trade Assesses the global picture, looking at trends and production and consumption analysis

A history of the Dark Ages in Europe challenges popular beliefs while drawing on archaeological findings to profile a robust culture from which strong Christian kingdoms emerged, a civilization that demonstrated significant achievements in technology, commerce, education, and the arts. Reprint.

Making God Laugh follows one typical American family over the course of thirty years' worth of holidays. Starting in 1980, Ruthie and Bill's grown children -- a priest, an aspiring actress, and a former football star -- all return home, where we learn of their plans and dreams as they embark on their adult lives. The empty-nester parents contend with their own changes, too, as old family rituals are trotted out and ancient tensions flare up. As time passes, the family discovers that, despite what we may have in mind, we often arrive at unexpected destinations.

During the past two decades, Berkeley, California-based band leader/ singer/ songwriter/ fiddler/ guitarist/ bass player Laurie Lewis has quietly established herself as one of the finest, most diversely talented artists in traditional music. It is as an interpreter of her own memorable songs, however, that Laurie most often touches the uninitiated, and it is as interpreter of her own songs that she continues to leave an indelible impression on the hearts and minds of festival audiences, concertgoers, album buyers, and music lovers in general throughout the traditional and acoustic music world. In "Earth and Sky" Laurie presents forty-five of her original songs along with her musical arrangements in a large-format book with a lay-flat binding. She introduces the book with an essay ("Courting the Muse") about her songwriting methods. There she doles out plenty of practical advice, speaks openly of her influences, and touches on theory. Several of the eighty black and white photographs that accompany her music and lyrics show her hobnobbing with the masters, including Ralph Stanley, George Shuffler, and Doc Watson. Other photos document her many achievements (twice named "Female Vocalist of the Year" International Blue ?Grass Music Association), show her touring with the Pantomos of the Opry and the Arkansas Sheiks Universally regarded as one of traditional music's best original songwriters, Laurie Lewis here delivers a first book full of passion and craft that is sure to touch music lovers right to the heart.
