This article provides a selective, critical survey of the academic literature on the financial management policy of multinational enterprises (MNEs). The focus of much current research interest can be captured in two major themes which also dominate this analysis. The first is financial management policy in relation to the increasing volatility of real and financial asset prices in the ...

International Financial Management and Multinational ...  
The demise of capital flow barriers in international financial markets has had several consequences including: a) an increase in cross-border financing as multinational corporations raise capital in whichever market and in whatever currency offers the most attractive rates, b) an increasing number of cross-border partnerships including many international mergers, acquisitions, and joint ventures, and c) increasingly interdependent national financial markets.2.4 What distinguishes developed ...

Multinational Finance Solutions - SlideShare  
Like any finance function, international finance, the finance function of a multinational firm has two functions namely, treasury and control. The treasurer is responsible for financial planning analysis, fund acquisition, investment financing, cash management, investment decision and risk management.

MULTINATIONAL FINANCIAL MANAGEMENT: AN OVERVIEW STRUCTURE  
Banks and other "conventional" financial institutions frequently offer business loans to companies that are expanding into new markets. These loans generally come at a lower interest rate than what a venture capitalist firm would offer, but they usually require collateral as security. For both venture capitalist firms and conventional banks, be ...
