New In-Person Basic Life Support (BLS) Training Guidelines. TEACH COVID SAFE. As state, county and municipal governments continue to gradually re-open and ease restrictions, classroom BLS training and certification is likely to also gradually increase. As hands-on skill practice and evaluation are required for certification, everyone ' s primary concern must be for the health and safety of students and instructors.

~~New In-Person Basic Life Support (BLS) Training Guidelines~~

1. Introduction. These new guidelines are the culmination of many years of international collaboration to improve the practice and teaching of resuscitation medicine in order to improve survival from cardiorespiratory arrest. 1,2 English ambulance services initiate resuscitation on about 28,000 people who sustain an OHCA each year (52 cases per 100,000 inhabitants) and approximately 8% survive to leave hospital. 3 Data from the UK National Cardiac Arrest Audit (NCAA) indicate that in ...

~~Guidelines: Introduction | Resuscitation Council UK~~

Compression and release should take an equal amount of time. Combine chest compression with rescue breaths: After 30 compressions open the airway, again using head tilt and chin lift. Pinch the soft part of the patient's nose closed, using the index finger and thumb of your hand on his forehead.
