Throughout most of the world where the metric system is observed, guide numbers are expressed as a unitless numeric value like 34, even though they are technically a composite unit

File Type PDF Sb 900 Guide

Number of measure that is a two-factor product: $f \times \text{number of meters}$. As such, guide numbers can be reduced either to distance in meters or to $f \times \text{stops}$ depending on how one uses the guide number in a calculation.
