The Dark Ages Explained - Part 1 The Invention Of Religion Kindle
The Invention of Religion by Alexander Drake. "The Invention of Religion" is a brief, well-referenced, well-argued book that provides the most likely psychological mechanisms that led to the invention of religion. As the author notes, "In the absence of knowledge, humans will invent a religion". This is the perfect introductory-level book for the layperson.

The history of religion refers to the written record of human
religious feelings, thoughts, and ideas. This period of religious
history begins with the invention of writing about 5,220 years ago
(3200 BC). The prehistory of religion involves the study of religious
beliefs that existed prior to the advent of written records. One can
also study comparative religious chronology through a timeline ...

This classic work, winner of the 1973 National Book Award in Philosophy and Religion and Christian Century's choice as the Religious Book of the Decade (1979), is now issued with a new chapter by noted religious historian David Hall, who carries the story of American religious history forward to the present day. Praise for the earlier edition: "An unusual and praiseworthy book. . . . It takes a modern, almost anthropological view of history, in which worship is a part of a web of culture along with play, love, dress, and language." B.A. Weisberger, Washington Post Book World "The most detailed, most polished of the works in its tradition." Martin E. Marty, New York Times Book Review "An intellectual delight that one does not so much read as savor." America "The definitive one-volume study by the leading authority." Christianity Today "No one writing or thinking hereafter about America's past will be able to ignore Ahlstrom's magisterial account of the religious element." American Historical Review

For curious readers young and old, a rich and colorful history of religion from humanity's earliest days to our own contentious times In

File Type PDF The Invention Of Religion Kindle Edition Alexander Drake

an era of hardening religious attitudes and explosive religious violence, this book offers a welcome antidote. Richard Holloway retells the entire history of religion--from the dawn of religious belief to the twenty-first century--with deepest respect and a keen commitment to accuracy. Writing for those with faith and those without, and especially for young readers, he encourages curiosity and tolerance, accentuates nuance and mystery, and calmly restores a sense of the value of faith. Ranging far beyond the major world religions of Judaism, Islam, Christianity, Buddhism, and Hinduism, Holloway also examines where religious belief comes from, the search for meaning throughout history, today's fascinations with Scientology and creationism, religiously motivated violence, hostilities between religious people and secularists, and more. Holloway proves an empathic yet discerning guide to the enduring significance of faith and its power from ancient times to our own.

This anthology offers a comprehensive historical introduction to the central questions of philosophy of religion. Approximately two-thirds of the selections are from ancient, medieval, and modern sources, helping students to understand and engage the rich traditions of reflection on these timeless questions. The remaining contemporary readings introduce students to the more recent developments in the

File Type PDF The Invention Of Religion Kindle Edition Alexander Drake

field. Each of the thematically arranged sections begins with an editor's introduction to clarify the central issues and positions presented in the readings that follow. Topics include: * traditional theistic arguments * religious experience and revelation * fideism * naturalistic approaches to religious belief * the divine attributes * fate, freedom, and foreknowledge * the connection between religion and morality * the problem of evil * death and immortality * religious diversity * faith, reason, and the ethics of belief * science and religion. The text can be used alone or in conjunction with a secondary text in philosophy of religion such as Zagzebski's "Philosophy of Religion: An Historical Introduction" (Wiley-Blackwell, 2007).

The best-selling author of A History of God provides a sweeping exploration of religion's connection to violence, from the agrarian societies of early civilized man to the growing post-9/11 disillusionment with religion.

sample. Summary: The literature of Europe offers no substitute for "The Decline and Fall of the Roman Empire." It has obtained undisputed possession, as rightful occupant, of the vast period which it comprehends. The inherent interest of the subject, the inexhaustible labor employed upon it; the immense condensation of matter; the luminous arrangement; the general accuracy; the style, which, however monotonous from its uniform stateliness, and sometimes wearisome from its elaborate air., is throughout vigorous, animated, often picturesque always commands attention, always conveys its meaning with emphatic energy, describes with singular breadth and fidelity, and generalizes with unrivalled felicity of expression; all these high qualifications have secured its permanent place in historic literature. The gradual decline of the most extraordinary dominion which has ever invaded and oppressed the world; the fall of that immense empire, erected on the ruins of so many kingdoms, republics, and states both barbarous and civilized; and forming in its turn, by its dismemberment, a multitude of states, republics, and kingdoms; the annihilation of the religion of Greece and Rome; the birth and the progress of the two new religions which have shared the most beautiful regions of the earth; the decrepitude of the ancient world, the spectacle of its expiring glory and degenerate manners; the infancy of the modern world, the picture of its first progress, of the new

A foremost historian of religion chronicles the arrival of Christianity in the New World, tracing the turning points in the

File Type PDF The Invention Of Religion Kindle Edition Alexander Drake

development of the immigrant church which have led to today's distinctly American faith.

Presents a comprehensive guide to religions throughout history, from the origins of spiritual belief to modern organized religions and churches, and discusses how religion has affected and helped shape the history of the world.

Get the full picture! Understand the whole story! Faith and Modern Thought is a jargon-busting and engaging introduction providing an imaginative and creative way into the great minds that have forged the modern world, especially Kant and Hegel and the revolutionary philosophies of existentialism and Marxism they inspired. Tim Hull provides the wider intellectual picture, the fuller philosophical story in which modern theology was forged. After an engaging introduction to the European Enlightenment and the cultural crisis it triggered, the stage is set to understand the essence of modern theology. From that essential background the radical faith of many of the most influential of modern theologians and philosophers of religion is explored, exposing a deep-rooted indebtedness to the Enlightenment tradition.

File Type PDF The Invention Of Religion Kindle Edition Alexander Drake

A society with no grasp of its history is like a person without a memory. This is particularly true of the history of ideas. This book is an ideal introduction to the thinkers who have shaped Christian history and the culture of much of the world. Writing in a lively, accessible style, Jonathan Hill takes us on an enlightening journey from the first to the twenty first centuries. He shows us the key Christian thinkers through the ages - ranging from Irenaeus, Origen, Augustine and Aquinas through to Luther, Wesley, Kierkegaard and Barth - placing them in their historical context and assessing their contribution to the development of Christianity.
