Jump math was founded in the belief that all children, even those who have traditionally struggled at school, can learn mathematics. The JUMP Math student assessment & practice books are meant to be used in conjunction with the extensive teacher resources to enable students to practice and explore subtle variations on the lessons and to enable teachers to rapidly assess progress. For each lesson, there is a clear and highly effective lesson plan, which enables teachers to accomplish the seemingly impossible task of teaching to the whole class while tailoring to individual needs. Each lesson is carefully designed to generate deep, subtle, transferable mastery of key concepts. Lesson plans include ideas for contextualizing the math, questions and tasks that allow students to discover mathematical concepts, games, activities, and innovative extension questions that keep “fast” students engaged and learning while teachers help others to master the key objectives.

...explores the theory and practical application of the fundamental principles determining whether an expenditure may be currently deducted as an ordinary and necessary business expense or whether instead it must be capitalized and recovered through another tax accounting mechanism, such as depreciation. Other Tax Management Portfolios provide in-depth analysis of the Uniform Capitalization Rules of §263A. This Portfolio instead focuses upon the more traditional capitalization principles underlying §263(a), the decades of case law interpreting those principles, and the government's recent efforts to rationalize this area through the issuance of regulations.

The Association of Chartered Certified Accountants (ACCA) is the global body for professional accountants. With over 100 years of providing world-class accounting and finance qualifications, the ACCA has significantly raised its international profile in recent years and now supports a BSc (Hons) in Applied Accounting and an MBA.BPP Learning Media is an ACCA Official Publisher. The new ACCA syllabus for paper P4 is about the practical application of financial theory to problems that managers face, such as investment appraisal, funding policies, risk management, growth, organic or through mergers and acquisitions and dividend policy. The paper also covers crucial issues such as corporate governance and ethical and environmental aspects of financial policy.The BPP text provides a comprehensive treatment of the new ACCA syllabus for P4 and addresses all learning outcomes and the higher skills to be assessed in the professional examination in an integrated and practical way. The material, despite the technical nature of certain areas, follows a practical, common sense approach with plenty of case studies and real life business examples. The key points of each topic are summarised in a chapter roundup and tested in a diagnostic quiz at the end of each chapter. A question bank at the end of the book provides practice on exam style questions.BPP Learning Media is the publisher of choice for many ACCA students and tuition providers worldwide. Join them and plug into a world of expertise in ACCA exams.

This book gathers papers on recent advances in the ergodic theory of group actions on homogeneous spaces and on geometrically finite hyperbolic manifolds presented at the workshop “Geometric and Ergodic Aspects of Group Actions,” organized by the Tata Institute of Fundamental Research, Mumbai, India, in 2018. Written by eminent scientists, and providing clear, detailed accounts of various topics at the interface of ergodic theory, the theory of homogeneous dynamics, and the geometry of hyperbolic surfaces, the book is a valuable resource for researchers and advanced graduate students in mathematics.
