These are just some of the questions Charlie Sykes, editor-in-chief, and Tim Miller, and contributor for the Never-Trump, conservative news site The Bulwark, try to answer. Historian Ron Chernow ("Alexander Hamilton") sets the record straight about Ulysses S. Grant's military prowess, presidential record and alcoholism.

Examining the clandestine and subversive activities of Algerian nationalists in West Germany and Europe, Mathilde Von Bulow sheds new light on the extent to which FLN activities and French counter-measures impacted the conflict in Algeria and the politics of the global Cold War.

In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. Communities in Action: Pathways to Health Equity seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

This Handbook provides a comprehensive ten-step model that will help guide development practitioners through the process of designing and building a results-based monitoring and evaluation system.

Chapters: Description of Valdres, Norway; Bygdelag Movement, The Valdris Samband, Member of the Valdris Samband, Valdries in the World War, Some document and selections by members in America.

Frantz Fanon and Emancipatory Social Theory: A View from the Wretched, is a collection of essays engaged in a future-oriented remembrance of the emancipatory work of one of the most influential revolutionary social theorists: Frantz Fanon.

This book is designed to be the definitive statement on social equity theory and practice in public administration. Social equity is often referred to as the "third pillar" in PA, after efficiency and economy. It concerns itself with the fairness of the organization, its management, and its delivery of public services. H. George Frederickson is widely recognized as the originator of the concept and the person most associated with its development and application. The book's introduction and chapters 1-4 offer general descriptions of social equity in terms of its arguments and claims in changing political, economic, and social circumstances, and trace the development of the concept over the past forty years. Chapters 5-9 provide applications of social equity theory to particular policy arenas such as education, or to specific public administration issues such as the range of administrative discretion, the legal context, the research challenges, and social equity in the context of time and generations. Chapters 10 and 11 describe the current state of social equity and look towards the future.

Although it is still not known who wrote this work, despite its age it continues to be widely read today.

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work.As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Community corrections programs are emerging as an effective alternative to incarceration for drug-involved offenders, to reduce recidivism and improve public health and public safety. Since evidence-based practice is gaining recognition as a success factor in both community systems and substance abuse treatment, a merger of the two seems logical and desirable. But integrating evidence-based addiction treatment into community corrections is no small feat—costs, personnel decisions, and effective, appropriate interventions are all critical considerations. Featuring the first model of implementation strategies linking these fields, Implementing Evidence-Based Practices in Community Corrections and Addiction Treatment sets out criteria for identifying practices and programs as evidence. The book 's detailed blueprint is based on extensive research into organizational factors (e.g., management buy-in) and external forces (e.g., funding, resources) with the most impact on the adoption of evidence-based practices, and implementation issues ranging from skill building to quality control. With this knowledge, organizations can set realistic, attainable goals and achieve treatment outcomes that reflect the evidence base. Included in the coverage: Determining evidence for " what works. " Organization change and technology transfer: theory and literature review. The current state of addiction treatment and community corrections. Unique challenges of evidence-based addiction treatment under community supervision. Assessing suitability of evidence-based practice in real-world settings. A conceptual model for implementing evidence-based treatment in community corrections. Implementing Evidence-Based Practices in Community Corrections and Addiction Treatment is a breakthrough volume for graduate- and postgraduate-level researchers in criminology, as well as policymakers and public health researchers.
